

CIANBRO

History

With over 64 years of history, Cianbro has safely and efficiently planned, managed, and constructed many technically complex, historic, and environmentally sensitive projects for a wide variety of public and private clients. A total commitment to safety, combined with the enthusiasm of an innovative team of construction professionals, has enabled Cianbro to build a durable reputation for completing projects safely, on schedule, and within budget. Founded in 1949 by the Cianchette Brothers, Cianbro is now one of the United States' largest, most diverse, successful, open shop, 100% employee owned construction companies, presently operating in over 40 states and employing more than 4,000 team members.

Open Shop

Cianbro is an open shop / merit shop contractor, and is therefore not a signatory to any national or local labor agreements. Teamwork, dedication, and personal sacrifice are what differentiate Cianbro from its competitors. Cianbro applies its can-do spirit in the work place every day, implementing innovative and creative solutions for clients' needs on a wide variety of projects.

Awards and Recognitions

As the recipient of over 64 years of awards, Cianbro has been nationally recognized as the Contractor of the Year and Healthiest and Safest Company in America. Cianbro has also received awards for Excellence in Construction, Build America, Outstanding Civil Engineering Achievement, and Engineering Excellence. Cianbro's Project Teams are assembled with the depth, experience and expertise to ensure each project's success through attention to detail and aggressive management techniques.

Experience and Capabilities

Ranked #90 on Engineering News-Record's 2013 Top 400 Contractors, Cianbro is best known for its self-performing capabilities and innovative, hands-on construction techniques. Cianbro self-performs Civil, Structural, Mechanical, Electrical, Instrumentation, Fabrication, and Coating, in twelve different markets throughout the United States. Performing services under various contractual methods and in several different capacities, Cianbro has experience in Construction Management, Design-Build, and Engineer Procure Construct (EPC), in addition to conventional Design-Bid-Build. Cianbro continues to be selected as a Prime / General Contractor and Joint Venture Partner, and has also served as a Construction Manager, Subcontractor, Fabrication Supplier, and Consultant for construction services.

Health & Safety

Cianbro's number one priority is the safety of its team members - every team member should leave work in the same condition in which they came. Recognized as a national leader in pursuing health and safety in the workplace, Cianbro's success can be credited directly to the team's attitude towards working safely - one which is unmatched in the construction industry.

Operations

Cianbro has established a service territory which spans the entire United States. With the Corporate Office located in Maine, Cianbro also has offices in the North East, Mid Atlantic, Mid West, South Central, and South West Regions, in addition to Fabrication and Coating, Deep Water Marine, and Modular Manufacturing Facilities.

Construction Services

Cianbro provides Construction Services from the conceptual stages of design through implementation, to start-up, commissioning, and turn-key operations, with the overall objective to ensure each project is completed on schedule and within budget.
